PROFESSIONAL SUMMARY

Results-driven Computer Science student awaiting graduation with hands-on experience in full-stack web and mobile application development. Proficient in building scalable, secure, and user-centered applications using React.js, Node.js, React Native, and MongoDB. Strong foundation in system architecture, RESTful API development, and database design. Passionate about applying software engineering principles to deliver innovative and high-performance digital solutions within telecommunications and technology-driven environments.

EDUCATION

Bachelor of Science in Computer Science

Catholic University of Eastern Africa (CUEA) 2022-2026

Kenya Certificate of Secondary Education (KCSE)

Maranda High School 2018-2021

Kenya Certificate of Primary Education (KCPE)

Ademasajida Primary School 2010-2017

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript, C++

Frontend Development: HTML, CSS, React.js, Tailwind CSS

Backend Development: Node.js, Express.js

Mobile Development: Flutter, Android Studio

Databases: MySQL, PostgreSQL, Firebase

Version Control: Git, GitHub

Cloud & Tools: AWS (Fundamentals), Google Cloud (Basics)

Software Engineering: REST APIs, Authentication Systems, Agile Fundamentals

PROJECT EXPERIENCE

Real-Time Route Optimization Traffic Monitoring System

GitHub: <https://github.com/mohatech008>

- Designed and developed a real-time traffic monitoring system to optimize routes and simulate congestion reduction.
- Integrated Google Maps API and GPS tracking for dynamic route updates.
- Applied machine learning concepts for traffic prediction modeling.
- Implemented backend logic and database integration for scalable data handling.

EdTech Learning Management Platform

- Designed and developed a web-based EdTech platform to support digital learning and content delivery.
- Implemented secure user authentication and role-based access control (Admin, Instructor, Student).
- Built RESTful APIs using Node.js and integrated a PostgreSQL/Firebase database for course and user data management.
- Developed responsive user interfaces using React.js to enhance user engagement and accessibility.
- Enabled features such as course enrollment, content upload, assignment submission, and progress tracking.
- Applied software engineering principles including modular design, version control (Git), and structured testing.

Enkaj Homes – Property Listing Platform

- Collaborating on a full-stack property listing platform.
- Contributing to backend development and database design using Node.js and PostgreSQL.
- Supporting domain configuration, live deployment, and testing.
- Implementing authentication and role-based access control features.

WORK EXPERIENCE

Wholesale Business Manager

- Managed inventory systems, logistics coordination, and customer service operations.
- Implemented a digital record-keeping solution to streamline sales tracking and reporting.
- Improved operational efficiency through structured inventory monitoring.

LEADERSHIP EXPERIENCE

Chairman – Islamic Society of CUEA

- Led organizational planning, event coordination, and member engagement initiatives.
- Managed cross-functional teams during university events and fundraising activities.
- Strengthened communication and leadership skills through active governance.

CORE COMPETENCIES

- Full-Stack Web Development
- API Integration and System Design
- Database Modeling
- Problem Solving and Debugging
- Agile & Team Collaboration
- Version Control and Code Management

LANGUAGES

English – Fluent

Swahili – Fluent

Somali – Fluent

Arabic – Basic
